Site: AO-I- Agricultural Open Interim; Open Acreage

FLUM: The Future Land Use Map reflected a Planned Unit Development (PUD) designation. (NOTE: Sharyland Plantation’s Land Use Map showed this area as proposed residential.)

Review Comments: Since this area was currently proposed as residential Hunt’s land use map and it’s adjacency to existing residential neighborhoods this proposal was directly consistent to the City’s vision regarding residential uses in this area. There was no public opposition during P&Z 3/13/13 Mtg. P&Z unanimously recommended approval.

Staff and City Manager recommended approval.

Mayor Salinas asked if there were any comments for or against the request.

There were no comments.

Mayor Pro Tem Norie Gonzalez Garza moved to approve the rezoning and to adopt Ordinance No. 3919 Rezoning: A 75.17 acre tract of land situated in Porcion 58, Nicolas Bocanegra Survey, Abstract Number 27, and being part of Lots 81, 91, & 101, John H. **B. Conditional Use Permit: Guest Home on Property Zoned R-1 A, 2024
Lambethway, Lot 42 Sharyland Orchards Subdivision, R-1A, Juan Zuñiga
Adoption of Ordinance # 3920 approving 1.1B**

Site: The subject site was located on the SW corner of Lambethway and Ragland Road. The guest home was located on the NW area of the site, 70’ from the primary home. All setbacks were being exceeded.

History: On 7-27-09, City Council approved a conditional use permit for a guest home on which also allowed the existing “full kitchen” to remain. Mr. Zuñiga was now asking for a renewal of his guest house CUP.

Minutes, 03/25/13 Pg. 4

Review Comments: During the original approval, Planning had informed Mr. Zuñiga that a guest home CUP required the following:

1. No Kitchen;
2. No separate water meter;
3. No separate electrical meter; and
4. Must not be rented, must only be used for legitimate guest house purposes.

Upon an on-site inspection, staff found that there was a kitchen (approved by City Council to remain), the guest home's utilities (water/electrical) were connected with the primary home (meters), and there were no signs of the guest home being rented. There was no public opposition during the 3/13/13 P&Z hearing. P&Z unanimously recommended approval as per staff's recommendations.

Staff Recommendation: Approval subject to: 1) 3 year re-evaluation to ensure that the home would not be rented due to having a full, independent kitchen; 2) Continue to comply with requirements of no separate utility and electrical connections; 3) Transferability to owners imposing the same conditions as this applicant; and 4) Not to be used for rental purposes.

City Manager recommended approval.

Mayor Salinas asked if there were any comments for or against the request.

There were no comments.

Councilman Plata moved to approve the CUP and to adopt Ordinance No. 3920 Conditional Use Permit: Guest Home on Property Zoned R-1 A, 2024 Lambethway, Lot 42 Sharyland Orchards Subdivision, R-1A as recommended. Motion was seconded by Councilwoman Ramirez and approved unanimously 5-0.

ORDINANCE NO. 3920

C. Conditional Use Permit: Home Occupation – Photography Studio, 2002 N. Mayberry Road, A 155' x 220' tract of land out of the SW ¼ of Lot 24-9, West Addition to Sharyland Subdivision, AO-I, Arturo & Mandie Navarro Adoption of Ordinance # 3921 approving 1.1C

Site: The subject site was located in the NE area of Mayberry Road and Volz Lane. In 2012, Mr. & Mrs. Navarro purchased this site as their personal residence. According to the applicant, the home dated back to approximately 1912, which had been beautifully restored and was located approximately ¾ of an acre. The applicant wished to offer their property to professional photographers and their clients for outdoor photo sessions for special events such as weddings, quinceneras, anniversaries, etc. Mr. & Mrs. Navarro stated that they had received several offers from people wanting to use their property as a “back-drop”.

- Days & Hours of Operation: Monday - Saturday from 9:00 a.m. to 7:00 p.m., by appointment only.
- Staff: Only Mr. & Mrs. Navarro ran this home occupation.
- Parking & Landscaping: There was an existing driveway capable of accommodating 8+ vehicles. Since it's by appointment only, Staff did not foresee any parking issues. The site currently had several mature trees and other plants in the area.
- Must comply with Sec. 1.56-1, Zoning Code (home occupations regs.) included having only a 1' x 1' sign attached to the home and no exterior display or alterations indicating that the building was being used for any other purpose other than that of a dwelling.

Review Comments: Since the proposal would be by appointment only and there was plenty of parking and landscaping, staff did not object to this initial CUP, which would be the first of its kind. There was no public opposition during the 3/13/13 P&Z hearing. P&Z unanimously recommended approval as per staff's recommendations.

Staff Recommendation: Approval subject to: 1) A 1 yr. re-evaluation to further assess this home occupation, and 2) the acquisition of a business license.

4.0 Approvals and Authorizations

4.1 Preliminary Plat Approval: Santa Lucia Subdivision, A 13.055 ac. tract of land out of Lot 166, John H. Shary Subdivision, R-3 & C-3, Developer: Blanca A. Gutierrez Engineer: Rio Delta Engineering

The proposed subdivision was located on the NW corner of Taylor Road and Colorado Road.

History: On 1/14/13, the City council moved to table the subdivision, due to questions regarding the traffic that would be caused by the proposed commercial lots. The Council asked the project engineer to revise the proposal to reduce the amount of commercial development along Colorado from 21 commercial lots to 7 commercial lots. The revised subdivision consisted of 8 lots, in which Lot 1 was proposed for a new private and gated apartment complex (168 apartments) and the remaining lots would be for commercial uses.

Water: Water service would be provided via an existing 8" water line located along the west and north side of the site. The developer would also be installing a new 8" waterline along the south and east side of the site, thus looping the water system. There were 6 fire hydrants shown pursuant to the direction of the Fire Marshal, however additional hydrants would be required during the construction of the apartments complex. (Note: The apartment site plan approval would be forthcoming.)

Sewer: Sewer service would be provided through the installation of a new private lift station and a proposed 6" force main that would ultimately connect to the existing 10" line located along Shary Road. The private sewer improvements shall perpetually be maintained by the property owner's association. The Sewer Capital Recovery Fee (SCRF) equated to \$19,635.75 for the apartments and the proposed commercial lots as required by Ordinance #3022.

Streets & Storm Drainage: This subdivision abuts both Taylor Road and Colorado Street. Taylor was a future 80' ROW, 57' B/B. There was an additional 10' of ROW being dedicated along Taylor Road via this plat and no additional ROW was needed along the north side of Colorado. Taylor and Colorado Street were already fully widened along the developer's side of the street, i.e. any additional widening would occur when the McAllen's side along Taylor and the Shin's Property south of Colorado Road developed. There was also a 50' ROW, 37' B/B street proposed along Taylor Road that would provide access to Lot 1. The developer was also proposing to add a deceleration lane up to the entrance off of Taylor Road in order to aid in traffic congestion.

The developer would provide storm drainage by installing a 24" R.C.P. line along Colorado Street, the use of a detention pond, and swales. Our City Engineer had reviewed and approved the drainage report.

Other Comments: Water District exclusion required; 5' sidewalks must be installed along Taylor and Colorado Street; Park Fees must be paid in the amount of \$50,400 (\$300/H.U.E. x 168 apartments); there were existing street lights along Taylor and Colorado.

There was no public opposition during 3/13/13 P&Z's meeting. P&Z unanimously recommended approval as shown below.

Staff Recommendation: Approval subject to: 1) Payment of the Sewer Capital Recovery & Park Fee, and 2) Provided exclusion from the Water District.

Staff was seeking authorization to purchase via State approved contract for a lease to purchase of a Jacobsen Soil Reliever to be used by the Shary Municipal Golf course to revive fairways and greens due to severe compaction from golf carts. Soil Reliever would aid in reviving the course conditions by aerifying soil areas from depths of 4 inches to 16 inches. This would allow root systems to penetrate further by having water, fertilizers and herbicides going down further in the ground allowing for this root penetration and a strong root system, which was essential for strong grassy areas. Soil Reliever would also be used in other City areas such as Park areas where traffic had compacted areas in and around buildings.

Staff was seeking authorization to purchase via state approved Texas Buy Board contract number 373-11, official quotation from C&M Golf & Grounds Equipment with the total cost of \$15,713.00 and the four (4) year lease cost per month.
