RE: **Addendum No. 1/ RFB: 18-214-06-04 Liquid Copper Sulfate for Water Treatment Plants**

Dear Prospective Bidder:

The following is to be corrected/added/changed/clarified:

- a. This addendum is being provided to all bidders. Changes are marked with a vertical line on the right hand side.
- b. Question: You also have stated lbs but your description say's liquid and it can't be both unless you want to assume every gallon weighs 10 lbs and have us bid it that way but wanted further clarification please. Is there any way we could put our product in contention for this bid?

Answer: The bidder should determine the weight of their 1 gallon of product meeting the specific gravity outlined in our specification. The bid we need is in lbs. You are welcomed to send in your bid. If the product meets or exceeds the form, fit, and function specified in the solicitation, then the City will request for the product to be tested free of charge to the City.

- c. Question: I understand deliveries are as-needed. However, is there an estimated delivery quantity (i.e. full truck load, LTL, etc.)

Answer: We typically order a full truckload of liquid copper sulfate for each plant.

- d. We are not entertaining any other questions at this time.
- e. The bid due date has changed. The date for receipt of bid is Wednesday, June 6th, 2018 at 2:00 P.M. CST.

NOTE: This form must be completed and submitted with your bid response. WARNING: Failure of an Offeror to acknowledge receipt of this Addendum, as described herein, may result in REJECTION OF THE OFFER.

We apologize for any inconvenience this may have caused. Authorized signature is needed. Everything else shall remain the same. If you have any questions, please contact me at (956) 580-8667.

Sincerely,

Eduardo Belmarez,
Purchasing Director
