General:

- a) **Evaluation.** City of Mission's Evaluation Committee will evaluate proposals found to be responsive and responsible.
- b) **Responsiveness.** In order for a Proposer to be eligible to be awarded the Contract, the Proposal must be responsive to the Request for Proposal, and City of Mission must be able to determine that the proposer is responsible to perform the Contract satisfactorily. Responsive Proposals are those complying in all material aspects of the solicitation. Proposals which do not comply with all the terms and conditions of this solicitation may be rejected as nonresponsive. A Proposer may, at any time after the submission of the Proposal, be requested to submit further written evidence verifying that the firm(s) meets the criteria necessary to be determined a responsible Proposer. Refusal to provide requested information may result in the Proposer being declared nonresponsive, and the Proposal may be rejected.
- c) **Organization of Proposal Materials.** To enhance the comparability and facilitate evaluation, all proposals must be organized addressing each of the evaluation criteria as set forth in the section entitled

"Evaluation Criteria." **The Evaluation Committee may reject proposals if found to be in an unorganized manner.** An Evaluation Committee will evaluate all proposals submitted for this project.

(21) Adjective Scoring Ratings

Each criterion will be rated using the **Adjectival Scoring Method** as follows:

Definition of Adjective Rankings:

- Outstanding** Satisfies all of the agency's requirements, with extensive detail indicating a feasible approach & a thorough understanding of the project. The proposal has numerous significant strengths that are not offset by weaknesses. Meets or exceeds specified performance or capability evaluation standards required under the technical provisions in a beneficial way to the City of Mission. **The proposal has an overall low degree of risk.**
- Good** Satisfies all of the City's requirements, with adequate detail of a feasible approach & an understanding of the project. The proposal has some significant strengths or numerous minor strengths that are not offset by weaknesses. **The proposal has an overall low to moderate degree of risk.**
- Acceptable:** Proposal satisfies all of the City's requirements, with minimal detail indicating a feasible approach and a minimal understanding of the project. **The proposal has an overall moderate to high degree of risk.**
- Marginal** Proposal satisfies all of the City's requirements, with minimal detail indicating a feasible approach and a minimal understanding of the project. **The proposal has an overall high degree of risk.**
- Unacceptable:** Proposal contains at least one major error, omission, or deficiency that indicates a lack of understanding of the project. The approach cannot be expected to meet requirements or involves a very high risk. None of these conditions can be corrected without a major rewrite or proposal revision. Fails to meet an acceptable evaluation standard and the deficiency is uncorrectable. Firm lacks essential information to support a proposal.

A rating of —Acceptable is required to be eligible for award consideration. Offeror is cautioned to be aware of this standard when preparing your Proposal.

(22) Definitions for Technical Evaluation

- Clarifications:** Communications with an offeror for the sole purpose of eliminating minor irregularities, informalities, or apparent clerical mistakes in the proposal. Unlike discussions, clarifications do not give the offeror an opportunity to revise or modify its proposal, except to the extent that correction of apparent clerical mistake results in revisions.
- Discussions:** Oral or written communications including negotiations between the Authority and an offeror (other than clarifications) that; involves information essential for determining the acceptability of the proposal or to cure identified defects in the proposal.
- Deficiencies:** Defects in the proposal which preclude acceptance. Involves any part of the Offeror's proposal which would not satisfy the City's minimum requirements established in the solicitation. Included failures to meet specifications, submit information, or questionable technical or management approaches. Items disclosed during discussions, evaluated in two categories: material-basis for rejection because further discussions would be meaningless; curable –may be corrected by clarifications or discussions and brought into the competitive range.

Weakness: Includes ambiguities, lack of complete descriptions, errors in interpretation, omissions of essential information, inadequate information, all of which are considered curable in discussions. An excessive number of clarifications may in itself constitute a weakness.

Strengths: Elements of the proposal that meet or exceed the minimum requirements of the solicitation and provide an identified benefit to the City.

(23) Evaluation of Proposals

The City of Mission **representatives** will review and evaluate Proposals using the **Adjectival Scoring Method**. The evaluation of Proposals shall be based on criteria described below. All Proposals will be evaluated as a whole, and the City of Mission may invite one or more of the Respondents to attend a formal interview, if necessary. The interview will allow the invited Respondent(s) to further discuss the proposals with the City, and to respond to questions from the City. It is the intent of the City of Mission via this Request for Proposals (RFP) to identify the most qualified firm to engage in open and honest dialogue with Top Firm(s) giving proposer(s) the opportunity to adapt their initial offering and/or giving the City the opportunity to modify its initial requirements in order to reach a mutually beneficial partnership.

(24) Method of Selection

Proposals will be reviewed and evaluated by an evaluation team for the purpose of making a selection, request the submission of supplemental information, or require firms to make formal presentations before the selection committee for possible interviews. The purpose of the interviews will be to identify and recommend an individual or firm offering, in total, the highest qualifications and experience with this type of service. The evaluation team will forward evaluation results to City Council for consideration to engage firm(s) in negotiations. The proposals will be evaluated on various criteria including but not limited to the following:

(m) No Release. The carrying of the above-described coverage shall in no way be interpreted as relieving the Firm of any other responsibility or liability under this agreement, or any applicable law, statute, regulation, or order.

(37) Municipality's Right to Carry Out the Work

If the firm fails or refuses to carry out all or any part of the work in accordance with the contract requirements or within the contract schedule and fails or refuses to correct such deficiency within seven (7) days of receipt of written notice thereof from the City of Mission, the City, in its sole discretion and without waiving any other rights it may have, may elect to correct such deficiencies and charge the firm the cost of such corrections. Nothing in this clause shall relieve the firm of its obligation to perform the remainder of the work in accordance with the contract.

(38) Governing Law

The rights, obligations, and remedies of the parties shall be governed by the laws of the State of Texas. Whenever there is no applicable state statute or decisional precedent governing the interpretation of, or disputes arising under or related to, this contract, then federal common law, including the law developed by federal boards of contract appeals, the United States Claims Court (formerly the Court of Claims), and the Comptroller General of the United States, shall govern. Venue for any action shall lie exclusively in Hidalgo County, Texas. This is the complete agreement between the parties. If any provision of the contract is found to be invalid or unenforceable, the remaining provisions shall not be impaired.

(39) Title to Submittals

All information, drawings, or other submittals required to be furnished by the firm to the City under this contract shall become the property of the City.

(40) Disclosure of Interested Parties

Contractor is to comply with Government Code Section 2252.908 enacted by H.B. 1295, which prohibits a government entity or state agency from entering into certain contracts with a business entity unless the business entity submits a disclosure of interested parties. For more information go to the Texas Ethics Commission web page at: https://www.ethics.state.tx.us/whatsnew/elf_info_form1295.htm

(41) Default

(a) If the firm refuses or fails (i) to commence the work within the time required by this contract, (ii) to prosecute the work or any separable part with the diligence that will ensure its completion within the time specified in this contract, including any extension, (iii) to provide sufficient and properly skilled workmen or proper materials or equipment to complete the work in an acceptable manner and without delay, (iv) to promptly pay its subfirms, laborers, and materialmen, (v) to perform any of its other obligations under this contract, or (vi) to complete the work within the time specified in this contract ("events of default"), the City may, by written notice to the Firm, terminate the right to proceed with the work (or the separable part of the work). In this event, the City may take over the work and complete it by contract or otherwise, and may take possession of and use any materials, appliances, and plant on the work site necessary for completing

the work. The Firm and its sureties shall be liable for any damage to the City resulting from events of default, whether or not the Firm's right to proceed with the work is terminated. This liability includes any increased costs incurred by the City in completing the work.

(b) The Firm's right to proceed shall not be terminated because of delays nor the Firm charged with damages under this clause, if --

(1) the delay in completing the work arises from unforeseeable causes beyond the control and without the fault or negligence of the Firm (examples of such causes include (i) acts of God or of the public enemy, (ii) acts of the City in either its public or contractual capacity, (iii) acts of another Firm in the performance of a contract with the City, (iv) fires, (v) floods, (vi) epidemics, (vii) quarantine restrictions, (viii) strikes, (ix) freight embargoes, (x) unusually severe weather, or (xi) delays of subfirms or suppliers at any tier arising from unforeseeable causes beyond the control and without the fault or negligence of both the Firm and the subfirms or suppliers); and

(1) the Firm, within 10 days from the beginning of any delay (unless extended by the Purchasing Director), notifies the City Engineer or Purchasing Director in writing of the causes of delay. The Purchasing Director shall ascertain the facts and the extent of the delay. If, in the judgment of the City staff, the findings of fact warrant such action, the time for completing the work shall be extended. The findings of the Purchasing Director shall be final and conclusive on the parties but subject to appeal.

(c) If, after termination of the firm's right to proceed, it is determined that the Firm was not in default, or that the delay was excusable, the rights and obligations of the parties will be the same as if the termination had been issued for the convenience of the City.

(d) The rights and remedies of the City in this clause are in addition to any other rights and remedies provided by law or under this contract. Time is of the essence for all delivery, performance, submittal, and completion dates in this contract.

(42) Termination for Convenience

The Purchasing Director may, whenever the interests of the City so require, terminate this contract, in whole or in part, for the convenience of the City. The Purchasing Director shall give written notice of the termination to the Firm specifying the part of the contract terminated and when termination becomes effective.

(a) The Firm shall incur no further obligations in connection with the terminated work, and, on the date set in the notice of termination, the Firm will stop work to the extent specified. The Firm shall also terminate outstanding orders and subcontracts as they relate to the terminated work. The Firm shall settle the liabilities and claims arising out of the termination of subcontracts and orders connected with the terminated work. The Purchasing Director may direct the Firm to assign the Firm's right, title, and interest under terminated orders or subcontracts to the City. The Firm must still complete the work not terminated by the notice of termination and may incur obligations as are necessary to do so.

(b) The Purchasing Director may require the Firm to transfer title and deliver to the City in the manner and to the extent directed by the Purchasing Director: (i) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced or acquired for the work terminated; and (ii) the completed or partially completed plans, drawings, information, and other property that, if the contract had been completed, would be required to be furnished to the City. The Firm shall, upon direction of the Purchasing Director, protect and preserve property in the possession of the Firm in which the City has an interest. If the Purchasing Director does not exercise this right, the Firm shall use its best efforts to sell such supplies and manufacturing materials.

(c) The City shall pay the Firm the following amounts:

(1) For contract work performed before the effective date of termination, the total (without duplication of any items) of --

- (i) the cost of this work;
 - (ii) a sum, as profit on (i), above, determined by the Purchasing Director to be fair and reasonable; however, if it appears that the Firm would have sustained a loss on the entire contract had it been completed, the Purchasing Director shall allow no profit under this subparagraph
 - (iii) and shall reduce the settlement to reflect the indicated rate of loss.
- (2) The reasonable costs of settlement of the work terminated, including --
- (i) accounting, legal, clerical, and other expenses reasonably necessary for the preparation of termination settlement proposals and supporting data;
 - (ii) the termination and settlement of subcontracts (excluding the amounts of such settlements); and
 - (iii) storage, transportation, and other costs incurred, reasonably necessary for the preservation, protection, or disposition of the termination inventory.
- (3) The total sum to be paid the Firm under this subparagraph shall not exceed the total contract price plus the reasonable settlement costs of the Firm reduced by the amount of payments otherwise made, the proceeds of any sales of construction, supplies, and construction materials under this subparagraph, and the contract price of work not terminated.

(43) Termination for Default

(a) The City may, subject to the provisions of paragraph (c) below, by written notice of default to the Firm, terminate the whole or any part of this contract in either one of the following circumstances:

(1) if the Firm fails to make delivery of the supplies or to perform the service within the time specified herein or any extension thereof; or

(2) if the Firm fails to perform any of the other provisions of this contract, or so fails to make progress as to endanger performance of this contract in accordance with its terms, and in either of these two circumstances does not cure such failure within a period of 10 days (or such longer period as the Purchasing Director may authorize in writing) after receipt of notice from the Purchasing Director specifying such failure.

(b) In the event the City terminates this contract in whole or in part as provided in paragraph (a) of this clause, the City may procure, upon such terms and in such manner as the Purchasing Director may deem appropriate, supplies or services similar to those so terminated, and the Firm shall be liable to the City for any excess costs for such similar supplies or services; provided, that the Firm shall continue the performance of this contract to the extent, if any, it has not been terminated under the provisions of this clause.

(c) Except with respect to defaults of subfirms, the Firm shall not be liable for any excess costs if the failure to perform the contract arises out of causes beyond the control and without the fault or negligence of the Firm. Such causes may include, but are not restricted to, the following: acts of God or of the public enemy, acts of the City, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; provided, however, in every case the failure to perform must be beyond the control and without the fault or negligence of the Firm. If the failure to perform is caused by the default of a subfirm and if such default arises out of causes beyond the control of both the Firm and subfirm and without the fault or negligence of either of them, the Firm shall not be liable for any excess costs for failure to perform, unless the supplies or services to be furnished by the subfirm were obtainable from other sources in sufficient time to permit the Firm to meet the required delivery schedule.

(d) If this contract is terminated as provided in paragraph (a) of this clause, the City, in addition to any other rights provided in this clause, may require the Firm to transfer title and deliver to the City in the manner and to the extent directed by the Purchasing Director (i) any completed supplies and (ii) such

partially completed supplies and materials, parts, tools, dies, jigs, fixtures, plans, drawings, information, and contract rights (hereinafter called "manufacturing materials") as the Firm has specifically produced or specifically acquired for the performance of such part of this contract as has been terminated; and the Firm shall, upon direction of the Purchasing Director, protect and preserve property in possession of the Firm in which the City has an interest. Payment for completed supplies delivered to and accepted by the City shall be at the contract price. Payment for manufacturing materials delivered to and accepted by the City and for the protection and preservation of property shall be in an amount agreed upon by the Firm and Purchasing Director. Failure to agree to such amount shall be a dispute concerning a question of fact within the meaning of the Disputes Clause of this contract. The City may withhold from amounts otherwise due the Firm for such completed supplies or manufacturing materials such sum as the Purchasing Director determines to be necessary to protect the City against loss because of outstanding liens or claims of former lien holders.

(e) If, after notice of termination of this contract under the provisions of this clause, it is determined for any reason that the Firm was not in default or that the default was excusable under the provisions of this clause, the rights and obligations of the parties shall be those provided in the Termination for the Convenience of the City Clause hereof. Failure to agree to any such adjustment shall be a dispute concerning a question of fact within the meaning of the Disputes Clause of this contract.

(f) The rights and remedies of the City provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract. Time is of the essence for all delivery, performance, submittal, and completion dates in this contract.

(g) As used in paragraph (c) of this clause, the terms "subfirm" and "subfirms" mean subfirm(s) at any tier.

CITY OF MISSION

Scope of Service

RFQ Name/No: Comprehensive Storm Drainage Assessment / 18-257-07-20

I. Services Required

The City of Mission is seeking statements of proposals from firms interested in providing the City Comprehensive Storm Drainage Assessment and Master Plan. The qualified firm selected is expected to have a sufficient level of resources and expertise to carry out the scope of service.

II. Administration

The City of Mission desires to hire a qualified engineering consultant to assist in the development of a Comprehensive Storm Drainage Assessment and Master Plan. In particular, the proposed service includes the collection and review of available office and field data, review of construction records, review of the capacity of the existing drainage systems, and the identification of a program for necessary improvements to the system.

The proposed assessment and plan will include the review of the City's existing storm drainage systems located within the City of Mission, and consultant will develop recommendations for drainage projects that will improve the performance of the storm drainage system.

III. Scope of Work

The proposed assessment and master plan will identify and prioritize necessary or desirable improvements to the system and develop descriptions and estimated capital and operational costs. The master plan will identify modifications or additions necessary to address the predicted future need for storm water design requirements. The planning period for the master plan shall be 10 years.

The consultant shall provide, at a minimum, weekly meetings with City personnel to review the progress of their review, discuss project challenges and findings, and review results.

The consultant shall conduct interviews with City & County personnel familiar with the storm water drainage system to collect information on performance and any known deficiencies. Consultants shall perform site visits to observe problem areas. **Consultant shall conduct community surveys and interviews with property owners throughout the City to properly assess and take into account feedback from property owners.** Consultant will be required to present thorough assessment and recommendations to City Council and City Executives.

The information provided shall be reviewed by the Consultant to determine if it is sufficient for use in meeting the objectives. If the information is not sufficient, the consultant shall suggest alternatives.

The Consultant shall develop hydrologic and hydraulic models for the drainage system utilizing appropriate software, HEC-HMS, HEC-RAS, HT-8, etc. All drainage systems shall be analyzed with enough detail to identify hydraulic constraints, predict pipe, channel, and conduit overflows, and quantify the effects of detention, surcharge storage, and overflow storage.

The review shall include consideration of existing and future buildout conditions for the 5-, 10-, 25-, and 100-year, 24-hour rainfall frequencies and shall identify trouble spots according to the criteria developed above, or as developed as part of the project.

The plan shall identify locations for facilities that show potential strategic value as detention, water quality, or controlled surcharge flood storage area based on geography, ownership, capacity, land value and development potential.

Consultant shall develop a database to assess the condition of the storm water collection system. The database shall separate the City's surface water collection system into segments, such as pipes, lift stations, outlet structures and manholes. Consultant shall develop a rating system to apply to the storm collection system segments. The rating system will be used to rank each segment based on highest priority of replacement or repair. The rating system will include a numerical points system based on items such as:

- A. Need for Increased storm volume Capacity
- B. Existing Deficiencies
- C. Years Left in Expected Life Cycle

Consultant shall design the database to be clear and simple for City personnel to update on an annual basis. The City would use the database to determine priority for capital maintenance projects for each fiscal year.

Consultant shall group identified improvements into projects with planning level cost estimates of $\pm 20\%$ accuracy prepared for each project. Consultant shall develop a 10-year Capital Improvement Plan (CIP) for the surface water collection system. The improvement projects will be prioritized in order of importance and need with suggested dates for construction assigned.

The study area for each watershed shall include the review of publicly owned structures and channels draining five acres or more on all tributaries that are included in the project.

The determination of which major drainage watersheds are to be included in the project will be made by the City and the selected Consultant based on budget constraints. Additional areas may be identified and added during the course of the project if budget permits.
