Charlie Longoria, Media Relations  
Juan Pablo Terrazas, City Engineer  
Roberto Salinas, Public Works Director  
Michael Elizalde, Grants Administrator  
Abel Bocanegra, Engineer in Training  
Roland Rodriguez, IT Director  
Susie De Luna, Assistant Planning Director

**1. Call to order**

With a quorum being present, Mayor Dr. Armando O'caña called the meeting to order at 3:30 p.m.

**2. Acceptance of Comprehensive Storm Drainage Assessment Plan**

Ponciano Longoria, P.E. representing TEDSI presented the Comprehensive Storm Drainage Assessment Plan. The Purpose and Objectives was to assist the City of Mission in making decisions toward a more comprehensive and integrated drainage system approach that met the needs of the community. Provide a road map for improving the city's drainage infrastructure to address existing flooding conditions. Prepare

the city for the future development and climate conditions. Develop a Capital Improvement Plan that would allow the city to plan and program the necessary investment required to implement the master plan. Identify locations and extent of flooding problem areas. Evaluate and optimize drainage improvements to eliminate or reduce flooding problems under existing and ultimate development conditions. Estimate probable costs associated with the proposed drainage system improvements. Prioritize proposed drainage improvement plans. Provide a digital record (GIS layers of proposed improvements, H&H models) that can be utilized by the city as base information for the future drainage improvements. The master plan focused on eliminating the 10-Year flood risks to streets and property and reducing the 100-Year flood risk to property.

A Capital Improvement Plan and Project Cost Estimates were discussed for the proposed improvements for the drainage system. Estimated costs were based on unit cost rates and quantity estimations of proposed improvement elements. Probable construction costs associated with the proposed improvements were estimated based on project bid unit cost information obtained from the Texas Department of Transportation department Average Low Bid Prices. The overall improvements include three miles of Channel Improvements, five new detention basins, fifty miles of storm sewer system improvements and fifteen bridge/culvert expansions or replacement. The total estimated CIP cost was \$93M.

After the presentation questions were asked by the City Council, Drainage Committee and Planning and Zoning Commission.

Mayor Pro Tem Norie Gonzalez Garza moved to accept the Comprehensive Storm Drainage Assessment Plan as presented. Motion was seconded by Councilman Ruben Plata and approved unanimously 5-0.

### **3. Adjournment**

At 4:25 p.m. Councilman Plata moved for adjournment. Motion was seconded by Councilwoman Jessica Ochoa and approved unanimously 5-0.
