## Programs & Services

### Program Description:

**Power Hour–** is a program in which our staff helps alleviate our members homework by providing individual assistance in all areas of study. Staff assists children with any questions they may have regarding their homework or any other questions they may have pertaining to their studies.

**Fitness Authority–** is a program that increases knowledge of nutrition, hand eye coordination, endurance, motor development, total fitness and self esteem.

**Smart Moves-** is a creative fun learning experience that provides boys & girls the knowledge and skills they need to grow into confident, healthy teenagers. Smart Moves provides members the accurate information ,resistance training, and other critical skills for avoiding alcohol, tobacco, drugs, as well as peer pressure.

**Arts & Crafts–** this program helps develop the youths artistic skills and enhance their creative talent. Children work closely with staff that encourages creativity, and that help members realize their creative potential.

**Computer Lab–** the computer lab is a program in which children have direct contact with technology via a desktop. Staff members teach children how to operate basic programs such as Microsoft Word, Excel, and Power Point.
