- 3) the quality of the bidder's goods or services;
- 4) the extent to which the goods or services meet the municipality's needs;
- 5) the bidder's past relationship with the municipality;
- 6) the impact on the ability of the municipality to comply with laws and rules relating to contracting with historically underutilized businesses and nonprofit organizations employing persons with disabilities;
- 7) the total long-term cost to the municipality to acquire the bidder's goods or services; and
- 8) any relevant criteria specifically listed in the request for bids or proposals.

**(11) Brand Name or Equal Brand Name Specifications**

The items called for in this solicitation are identified by brand name with their respective salient characteristics. These brand name identifications are not intended to be restrictive. The salient characteristics provided are the minimum criteria that shall be acceptable to the City. Items offered must be the same brand names specified or different brand names that meet or exceed the salient characteristics listed. Offers for items that do not satisfy the required salient characteristics shall not be considered for award. The City reserves the right to determine if items meet or exceed the salient characteristics. Offers for "Equal Brand Name" items shall be considered for award if such items are clearly identified in the offer, and are determined by the City to satisfy the stipulated salient characteristics.

**(12) Sample Requirements**

Upon request, the bidder agrees to supply at no cost to City samples of the products proposed for testing prior to contract award. Samples will be available and submitted to City within five (5) days of request, oral and written, by City and will be returned at bidder's cost only on request from the vendor after testing is complete. It is used to identify details of the item(s) pertaining to such significant elements as: (1) design; (2) materials; (3) components; (4) performance characteristics; and (5) methods of manufacture, assembly, construction, and/or operation. Descriptive literature includes only that information required to determine the technical acceptability of the offered product. It does not include other information such as that used to determine a prospective contractor's responsibility, or for maintaining the item(s).

(d) Failure of a bidder to submit descriptive literature on time, or failure of the descriptive literature to clearly show that the item(s) offered conform to the requirements of this solicitation shall result in rejection of the bid as nonresponsive.

**(19)** Unless otherwise specified, any catalog or manufacturer's reference or brand name used in describing an item is merely descriptive, and not restrictive, and is used only to indicate type, style or quality of material desired. If a bidder quotes on an article other than the one specified, which he/she considers comparable, the name and grade of said article must be specified in the bid and sufficient specifications and descriptive data must accompany same to permit thorough evaluation. In the absence of these qualifications, he/she will be expected to furnish the article called for.

**(20)** The bidder agrees to indemnify and save harmless the City, the Purchasing Agent and any assistants from all suits and actions of every nature and descriptive brought against them or any of them, for or on account of the use of patented appliances, products or processes, and he/she shall pay all royalties and charges which are legal and equitable.
